Dear John,

Here is a draft RA tour & Agenda. I talked to Jermaine, and he can meet us at the Storehouse to let us through the gates like last time w/CDPH. Then I thought we could leave via Crisp Rd and see Parcel E-2 and Parcel A-2 from there. The way back will be almost the same amt of time.

The "EPA to Parcel A Parcel G" map shows the overall route from the office to the Shipyard, but ignore the part about going all the way around between Parcel A & G. It shows that way because car access is not permitted.

The other map "Parcel A Parcel G" map is a closeup that shows closer to the correct route bc I have clicked for bicycle directions instead.

Please let me know any changes you want.

Thanks!
